

## 03 *flat backs* HOTFIX

Flat Backs Hotfix (HF) are loose crystal elements with a flat reverse side that has been pre-coated with a heat sensitive glue. Flat Backs HF can be easily applied by heat to a range of textile carrier materials and produce a durable and long lasting crystal effect. Flat Backs HF are available in a multitude of colours, shapes and cuts. The most important single item in this product group is the XILION Rose – the most brilliant cut on the market.
